

# Academic Support for Mathematics Students

Worried about math? Whether you are studying for a prelim or brushing up on forgotten algebra, we can relieve your math anxiety. Don't wait until the end of the semester to seek help!

---

## Math Support Center 256 Malott Hall

Kelly Delp, director  
(607) 254-5058  
kp68@cornell.edu

*The MSC operates on the premise that you will learn mathematical concepts best by doing problems and practicing regularly. Study capsules and tutoring assist in refreshing your memory, filling gaps in your math background, reinforcing class work, helping on difficult topics, or reviewing for exams. MSC services are available weekdays and Sundays throughout the semester.*

For review session and tutoring schedules, copies of study capsules, and more, visit [www.math.cornell.edu/msc/](http://www.math.cornell.edu/msc/)

qel2@cornell.edu

Mark Jauquet  
214 Malott Hall  
(607) 255-5248  
maj29@cornell.edu

*Classes, tutorials, workshops, and individual consultations help students develop effective learning strategies and reach their academic potential.*

Web site: [lsc.cornell.edu](http://lsc.cornell.edu)

## Free Tutoring

Experienced tutors are available on a walk-in basis for free individual and small-group tutoring. Hours generally include business hours weekdays and Sunday evenings in the Math Support Center with additional hours on north campus two evenings each week. The schedule is posted outside 256 Malott Hall and at [www.math.cornell.edu/msc/](http://www.math.cornell.edu/msc/).

## Review Sessions

Review sessions are held at the start of each semester for students wanting to brush up on some pre-calculus topics. The schedule for spring 2017 is:

- Algebra Review — January 31, 7:00–9:00 p.m. in Malott 406
- Trigonometry Review — February 2, 7:00–9:00 p.m. in Malott 406

## Independent Study Capsules

Compact study capsules address topics from pre-calculus to calculus and allow students to work at their own pace.

## Resources

- A small library of math texts helps students to broaden their understanding of mathematical concepts.
- Our *Survival Kit* is filled with suggestions for succeeding in a Cornell math class.

---

## Academic Support Courses

MATH 1006, 1011, 1012, and 1021 meet weekly to supplement lecture material, answer questions, and provide tips for effectively learning the material in MATH 1106, 1110, 1120, and 2210. Students who enroll in a support course receive one transcript credit (depending on college) and tutoring services. Those who do not wish to enroll are invited to attend but cannot utilize the tutoring services. There are no exams or homework assignments. Students who enroll receive S/U grades based on attendance only.

## Free Statistics Tutoring at the LSC Statistics Lab

The LSC offers free statistics tutoring on a walk-in basis to students enrolled in AEM 2100, BTRY 3010, HADM 2010, ILRST 2100, ILRST 2110, MATH 1710, NTRES 3130, PAM 2100, PSYCH 3500, SOC 3010, STSCI 2100, STSCI 2110, STSCI 2150, and STSCI 2200 during the academic year. The lab is located in 417 CCC and staffed with peer tutors four evenings per week. For further information, contact the Stats Lab during regular lab hours at (607) 255-0418 or visit the Learning Strategies Center web site at <http://lsc.cornell.edu/tutoring/statistics-lab/>.
