Welcome to MATH 1106! The following information about sections will be useful:

TA: Hannah Keese
Email: hrk49@cornell.edu
Course website:
- [http://www.math.cornell.edu/~web1106/](http://www.math.cornell.edu/~web1106/)
- [http://www.math.cornell.edu/~hkeese/teaching.html](http://www.math.cornell.edu/~hkeese/teaching.html)

Sections:
- 205: WF 9:05-9:55 RCK112
- 206: WF 10:10-11:00 RCK 112

Assignments: due at the start of class on Friday. I will not accept late assignments. I encourage you to work in groups to understand the assignment problems, but you must each write up and hand in your homework individually. Assignments should be written up neatly and clearly in pen (or typed), and stapled together. Please write your name, section, assignment number and the names of your collaborators (if any) on the front page.

Quizzes: These will be held in the first 10 minutes of class on Friday, with the lowest grade dropped from your average. You cannot take quizzes late. Quiz questions will be similar to those on assignments, and will be computationally simple.

Attendance: You will be graded for in-class participation. Please come prepared! This means have your own paper and pen and read through the previous week’s lecture notes before recitation. If you have a particular concept from lecture that you would especially like to cover in tutorial please let me know! Given enough notice (at least 24 hours) I will do my best to cover this in class, or at the very least in my office hours.

Office hours: If you have any questions or concerns about the course, come chat to me during office hours. Remember, there are no stupid questions!
Further help: If you would like more help with this course, I encourage you to use the following resources:

- My office hours (to be determined)
- Dr. Back’s office hours
- The Math Support Center
- Math 1006 is a support course for Math1106 taught by Dr. Quincy Loney.
