Prelim 1 rewrite: due in class Monday October 16th 2017

1. If you earned a score of 90 points or more, you do not need to rewrite any of your problems. You will receive full marks for this exercise. However, it is good practice to rewrite any problems on which you did not receive full marks, and you are welcome to submit these if you wish.

2. If you earned less than 90 points, you must rewrite the two problems on which you lost the most points, as follows:
   (a) First, explain (using full sentences) what you had trouble with in the problem or why you could not do the problem.
   (b) Secondly, write up a solution to the problem in your own words, explaining your work clearly and concisely.

3. **Grading** Your prelim rewrite will be out of 20 (10 points per problem), and count towards your section grade with the same weight as a quiz.
